PROFESSIONAL EXPERIENCE

SuperGuide.com.au
2021 - Present

Web Developer

- Developed a custom blocks plugin using @wordpress/scripts that adds multiple custom ACF blocks to the block editor.
- Built a custom theme using Genesis theme with Gulpjs & Webpack build system which shortened the development time and improved the developer experience.
- Modernize developer workflow by using version and WP Engine's git push.

Key achievement:

Full website redesign resulting to improved overall branding consistency and better user retention rate.

RipplePop
2020 - 2021

Web developer

- Help solve technical problems for multiple clients through RipplePop.
- Built commercial plugins for GFChart users.
- He restructured TryHelped.com (previously PainTheory.co) custom post type and custom taxonomy structure and hierarchy.
- Carried out client task for fivetwofive.com
